SALLYPRO C

CARDIAC PROTEIN POWDER

Protein Powder with Arjuna & Beet Root Extract **Daily Nutrition Supplement**

◆ Cardiovascular Health

Arjuna is most renowned for its cardioprotective effects. It strengthens the heart muscles, improves cardiac function, and reduces the risk of ischemic heart disease. It also helps manage hypertension and lowers cholesterol levels. (Dwivedi, 2007).

◆ Cholesterol Reduction

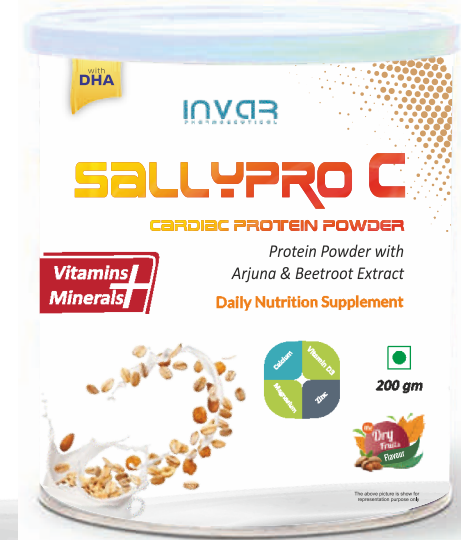

Arjuna helps lower LDL and triglycerides while increasing HDL, thereby reducing the risk of atherosclerosis. (Kumar et al., 2013).

◆ Blood Pressure Regulation

Arjuna helps maintain healthy blood pressure levels by improving endothelial function and reducing arterial stiffness. (Radhakrishnan et al., 2011).

SALLYPRO C

CARDIAC PROTEIN POWDER

Protein Powder with Arjuna & Beet Root Extract **Daily Nutrition Supplement**

◆ Cardiovascular Health

Beetroot is rich in dietary nitrates, which convert to nitric oxide in the body. Nitric oxide helps dilate blood vessels, lower blood pressure, and improve cardiovascular health. (Kapil et al., 2015).

◆ Support for Brain Health

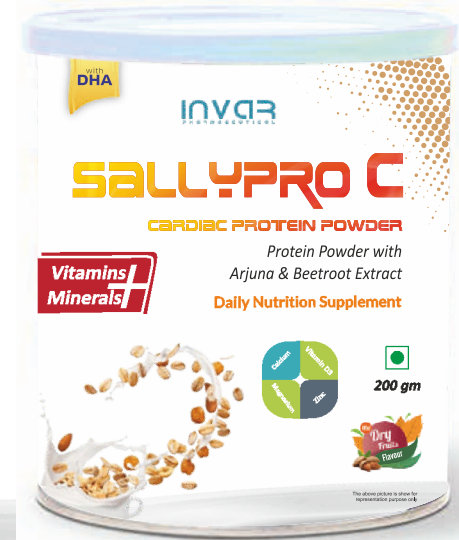

Beetroot may improve cognitive function by enhancing blood flow to the brain, especially in aging populations. (Presley et al., 2011).

◆ Immune System Boost

Beetroot is high in vitamin C, folate, iron, and other nutrients that support immune function and red blood cell production. (Bailey et al., 2009).

DIABESITY POWDER

*Enriched with whey protein, Omega 3, fibers, CLA & Garcinia Cambogia
Extract Enriched with Micronutrients Antioxidants and Vitamins No added sugar*

Daily Nutrition Supplement

Sugar Free

◆ Metabolic Syndrome and Diabetes

Omega-3 fatty acids help improve insulin sensitivity, reduce inflammation, and lower the risk of metabolic syndrome. (Gepner et al., 2015).

◆ Reduces triglycerides

Omega-3 lowers blood triglyceride levels, reducing the risk of heart disease

◆ Improves dry eye syndrome

Helps maintain proper eye lubrication.

Daily Nutrition Supplement

Sugar Free

- ◆ DHA plays a crucial role in maintaining the structure and function of the retina, reducing the risk of macular degeneration and dry eye syndrome. (Chew et al., 2013).
- ◆ Brain Health and Cognitive Function DHA, a major structural fat in the brain, supports cognitive function, memory, and learning. Omega-3s may also reduce the risk of Alzheimer's disease and age-related cognitive decline. (Schwellenbach et al., 2020).
- ◆ **Weight Management Appetite suppression**
HCA may increase serotonin levels in the brain, promoting satiety and reducing hunger. (Onakpoya et al., 2011).
